PROJECTS

GITHAVIOUR | SENTIMENT ANALYSIS

Mar 2019 - Mar 2019

There are plenty of tools that extract developers skillset using their GitHub profiles. However, there was no similar tool to extract their behavioral attributes using GitHub's data. Githaviour attempts to address this, and builds a behavioral profile of a provided GitHub handle.

SOCIAL NETWORK ANALYSIS ON TWITTER COMMUNITY | DATA SCIENCE

Jan 2019 - Apr 2019

Based on a network analysis of users, the visualization of the "who's following who?" graph allows us to highlight the structure of the network's relationships, and identify users whose position is particular. It also enables us to see how the central nodes (Influencers) play a major role in influencing the community.

YELPCAMP | FULL STACK

Jun 2017 - Jul 2017

Developed full stack CRUD web application where users can comment and leave reviews about campgrounds. Features include user profile, authentication, error handling, authorization, REST routes and admin privileges.
